XUV 3XO

XPREZ PANEL VAN

mahindra.co.za

A frugal performer

The Mahindra XUV 3XO panel van is powered by the same 1.2-litre turbocharged petrol engine as the rest of the 3XO range, which offers 82kW at 5 000r/min and 200Nm between 1500 and 3500r/min and is available exclusively with a six-speed manual transmission.

The XUV 3XO is equipped with an advanced suspension system that includes a MacPherson strut fully independent front suspension and a twist beam semi-independent rear suspension.

This set-up ensures great ride quality that is both quiet and comfortable which, coupled with generous ground clearance, ensures that the XUV 3XO is ready to answer business needs by carrying loads safely and securely across a variety of terrains. Contributing to this ability is generously sized 205/65R16 steel wheels.

Comprehensive standard specification

The Mahindra XUV 3XO sets itself apart from its competitors with a high level of standard specification for the segment and price point, which has been carried over to the panel van derivative.

Standard specifications include Bi-Halogen projector headlamps, LED signature lamps incorporating turn signals and LED tail lamps.

The interior is also well specified with electrically adjustable rear-view mirrors, engine start/stop functionality, smart steering modes, power windows, a front armrest with storage and a nine-inch infotainment system. Ergonomically designed seats ensure all day comfort, and high-quality materials offer a comfortable and pleasant working environment.

A front USB A, rear USB-C port and a 12V socket make provision for the powering of devices that are typically needed in vehicles that are on the road all day, including dashboard-mounted cameras, smartphones and even small refrigerators.

Despite its commercial vehicle positioning, the Mahindra XUV 3XO panel van continues to prioritise safety and boasts ABS, Electronic Stability Control (ESC), six airbags, a front height adjustable seat belt, seat belt reminder and reverse parking sensors.

Additional accessories in the form of front floor mats, wheel covers and a transponder alarm are available as optional extras.

Mahindra enjoys an excellent reputation with commercial vehicle users thanks to the success of our locally assembled Pik Up range, and we are excited to now offer commercial vehicle customers a unique panel van solution

- Rajesh Gupta.
